1. Introduction

TOP G CEO, launched in May 2023, is the fastest-growing cryptocurrency of its type awarding holders in Binance-Peg BUSD (need to be inserted in the wallet to be visible). It is a decentralized platform to bridge the gap between cryptocurrency and fiat currency and to bring the benefits of the crypto world to the everyday person. Based on the Binance smart chain, it has 10x quicker block speeds and lower gas costs.

TOP G CEO is proud to be between the world's first Yield Generation tokens to reward its holders in Binance-Peg BUSD . It is establishing a new standard in DeFi Tokenomics with its innovative and game-changing Token distribution strategy. TOP G CEO is intended to be held, but it benefits investors during periods of anticipated cryptocurrency volatility. With a tax system that is the same inside and outside the country, all price actions will result in the same rewards.

2. Abstract

TOP G CEO rewards its holders in Binance-Peg BUSD, a Crypto Pegged one-to-one with the USD. This single feature is so important that it makes TOP G CEO a front runner among all the cryptocurrencies. With every transaction, a small 1% percentage of tokens are automatically transferred to the PancakeSwap liquidity Pool.

TOP G CEO Ecosystem will have an active NFT Market place to buy, and sell NFTs and a dApp Dashboard to view and monitor earned prices. Other features like play to earn games, staking pools, swap exchange the earnings from the played games, will be also provided to make the platform fun and easy to earn steadily.

3. TOP G CEO Protocol

On the Binance Smart Chain (BSC), TOP G CEO is the next generation of the reward token: Binance-Peg BUSD reward token to optimize user's profits, both now and in the future. Simply by holding TOP G CEO (TPGC) tokens, users will receive an 8 percent return in Binance-Peg BUSD for each transaction, which will automatically be transferred to the wallet.

TOP G CEO has a total supply of 1,000,000,000 TPGC (one billion) . Out of the total TPGC tokens, 35% of TPGC tokens are reserved for future CEXs listing and Staking, 50% will be transferred to Pre-Sale and to the Liquidity Pool – which will be locked for 1 year, 5% will be transferred to the NFT Marketplace and NFT Launchpad wallet, 5% of the developer and team and 5% to the Marketing wallet.

8% of every buy/sell/transfer is redistributed to all holders in Binance-Peg BUSD , which will automatically be transferred to the wallet in maximum 10 minutes.

1% of every transaction is transferred into Liquidity Pool for Pancakeswap to create a stable price floor

1% of every transaction is transferred into the Marketing wallet for promotions and mass recognition .

4. Values

Transparency

On the Binance Smart Chain (BSC), TOP G CEO is the next generation of the reflection token: Binance-Peg BUSD reward token to optimize user's profits both now and in the future. Simply by holding TPGC tokens, users will receive an 8 percent return in Binance-Peg BUSD for each transaction, which will automatically be transferred to the wallet in maximum 10 minutes.

Community

TOP G CEO is one of the fastest-growing and most beloved communities in cryptocurrency. We believe that community is essential, and TOP G CEO tries to involve people from all around the world. We will soon offer specialized telegram channels for our foreign community.

Trust

Trust is critical in the cryptocurrencies industry. This entails complete openness in all aspects of community and development work, as well as security efforts. The inclusion of Binance-Peg BUSD brings more trust to its users.

Longevity

TOP G CEO is here to stay. The decentralized community encourages and embraces long-term ecosystem and foundation development to generate genuine use cases and higher benefits than any ephemeral fad.

5. The Technology Behind TOP G CEO

Binance Smart Chain (BSC) was created to enable the use of solidity-based smart contracts at a significantly faster and more efficient rate than other competing chains. With decentralized exchanges on BSC providing lightning-fast transactions and ultra-low costs, BSC has begun to establish itself as one of the most frequently utilized blockchains for Decentralized Finance (DeFi). BSC makes use of the BEP-20 token technology, which the Binance Team created. It is a proprietary blockchain that ensures the security and privacy of all users and developers. Its inherent dual-chain interoperability enables cross-chain communication and scalability of high-performance decentralized applications (dApps) that demand a quick and fluid user experience. It is EVM compatible and will support all current Ethereum tools and faster and more affordable transactions. Based on the Proof of Staked Authority consensus, its on-chain governance would allow decentralization and substantial community participation via the use of 21 validators that verify transactions.

6. TOP G CEO Ecosystem

NFT Lending

The world's first decentralized marketplace for facilitating NFT and DeFi liquidity. TOP G CEO marketplace, which is based on BSC, will enable NFT owners to simply borrow against their NFTs as collateral at market rates without selling them. This implies users can make revenue from their NFTs rather than having them collect digital junk.

NFT Marketplace

Users may purchase and sell NFTs on the platform, including those obtained via the NFT Lending platform's liquidated collateral. This creates an unusually competitive market for buying NFTs at a discount to their standard market value. Additionally, the marketplace features a minting tool that enables users to create their own NFTs using images, videos, and other data.

Staking Pools

By using a unique set of smart contracts for Staking Pools, TOP G CEO will be able to move part of liquidity to the Partnered Tokens by purchasing them on specific contract interactions, thus increasing the value of the Partnered Tokens. Participants in the Pool then get tokens in exchange for their contributions to the Pool. This idea provides the token with its long-term value since it allows to stake X tokens to gain Y tokens economically and mathematically sound.

Dashboard dApp and Swap Exchange

The TOP G CEO 's Distributed Application (dApp) Dashboard, which is constantly being updated and enhanced by community participation, comprises a swap exchange with a user-friendly design and the ability to see rewards produced in real-time. The Ecosystem has unlimited potential, which is made possible by the dedicated and hard-working team -- being a perfect combination of brains and brawn, and strives to make the experience a personal one for each investor.

7. Main Futures

TOP G CEO is proud to be between the world's first Yield Generation tokens to reward its holders in Binance-Peg BUSD . It is establishing a new standard in DeFi Tokenomics with its innovative and game- changing Token distribution strategy. TOP G CEO is intended to be held, but it benefits investors during periods of anticipated cryptocurrency volatility. With a tax system that is the same inside and outside the country, all price actions will result in the same rewards.

Binance-Peg BUSD Reflections – 8 %

Earn automatic Binance pegged BUSD rewards by holding your TPGC coin – 8% of every buy and sell transaction is automatically redistributed to all token holders. You will receive the rewards automatically in your wallet or you can claim them manually in our dApp Dashboard available on the website. This effectively means that the native reflection of TOP G CEO works in parallel with Stable Yield, generating a Compound Reflection effect and exponentially increasing your holdings.

Liquidity Pool

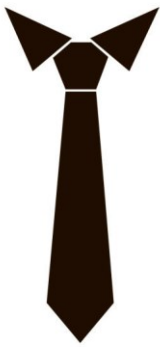

1% of every transaction is converted into liquidity for PancakeSwap. Pancakeswap fixes the low liquidity problems of DEXs through the liquidity Pool mechanism. A liquidity pool always contains a pair of tokens, which you can trade. Our Smart contract deposits 1% from every buy/sell/transfer transaction of TPGC and is adding BNB into a liquidity pool.

Marketing Wallet

At the same time, 1% from every transaction is allocated to Marketing Wallet for promotions and mass recognition .
